March & April 2015

School Wellness Activity

On March 26th 2015, our school participated in a swimming activity at the Dalhousie Recreaplex.

All grade levels had the opportunity to go to the pool and take part in an hour swim which was a lot of fun.

When students and staff arrived back at school, each class was given a yummy fruit tray to snack on.

Everybody had a great time on our school outing! On behalf of the school community, we thank Miss Tiffanie and all our staff members for making this activity possible.

Flat Water Canoeing

This year our annual Canoeing trip took place on March 20th, 2015 at the Campbellton Aquatic Centre.

Mr. Paul MacKinnon who is the Phys. Ed lead for the District demonstrated and taught the grade 4/5 students basic paddling skills and how to maneuver a canoe with our newly learned skills. The activity took place right alongside the pool deck and canoes were placed inside the pool in order to practice our canoeing skills.

At the end of the activity students got a special treat and were able to take a dip in the pool and get in a little bit of a swimming activity. It was a really fun and active morning at the Aquatic Centre.

Ringette

On Monday April 27th grade 2, 4, & 5 students had the opportunity to participate in a gym ringette activity. Two ladies from ringette New Brunswick visited our school and gave students a one hour demonstration of gym ringette. A big thank you to Ringette NB for making the visit to the LER.

It was a fun activity and everybody had a great time!

Basketball Program

The L.E.R after school basketball program has been back up and running since early March. The program is offered to grade 3, 4, & 5 students every Monday and Thursday after school from 3:00-4:00 pm.

The goal of the after school program is to help develop the basic skills kids need in order to play the game of basketball. We hope to inspire kids to stay active in school programs and to establish a positive sportsmanship atmosphere.

A huge thank you goes out to our coach Rodney Savoie for volunteering his time at the school along with the help of Miss Tiffanie.

Bean Stalk Project

Ms. Duguay's grade 2 students are working on what is called the bean project. Students planted rattle snake beans from seed and are learning how plants grow.

Their bean stalks are growing really fast says Ms. Duguay and students are really fascinated by the plants growth. Some bean plants stand 3 hands high and are continually growing.

Math skills are being put to use for this project as students are taking measurements and keeping track of their plants growth. Once the beans are ready for consumption they will display shades of green with purple stripes, the kids are hoping to eat their plants before the school year ends. Sounds delicious!

Volleyball New Brunswick

We had a special visitor on Friday April 24th. Monica Jones from Volleyball New Brunswick was here at the school for the day giving mini volleyball sessions to grade 3, 4 & 5. She showed students the basic volleyball skills to be able to play the game. Each class had the opportunity to play what is called the elimination game that helped students gain a better understanding of the game.

Thank you Monica for the lessons !

Fish Friends

Mrs. Harquail & Mme. Jane's grade 3 students are happy to announce that they are participating in the Fish Friends program. For the third year in a row L.E.R has joined in the salmon conservation project in helping raise salmon eggs and releasing the salmon fry back into their natural habitat come early June.

With both classes participating in the program this year we were fortunate to receive funding from ERB First Nation to help purchase a second tank to host salmon eggs. We'd like to send out a big thank you to ERB for helping with this wonderful initiative. Our staff and students are very thankful.

Theatre New Brunswick "The Eight Fire"

For the second year in a row the L.E.R community has invited Theatre New Brunswick Young company to visit the school to put on an outstanding performance.

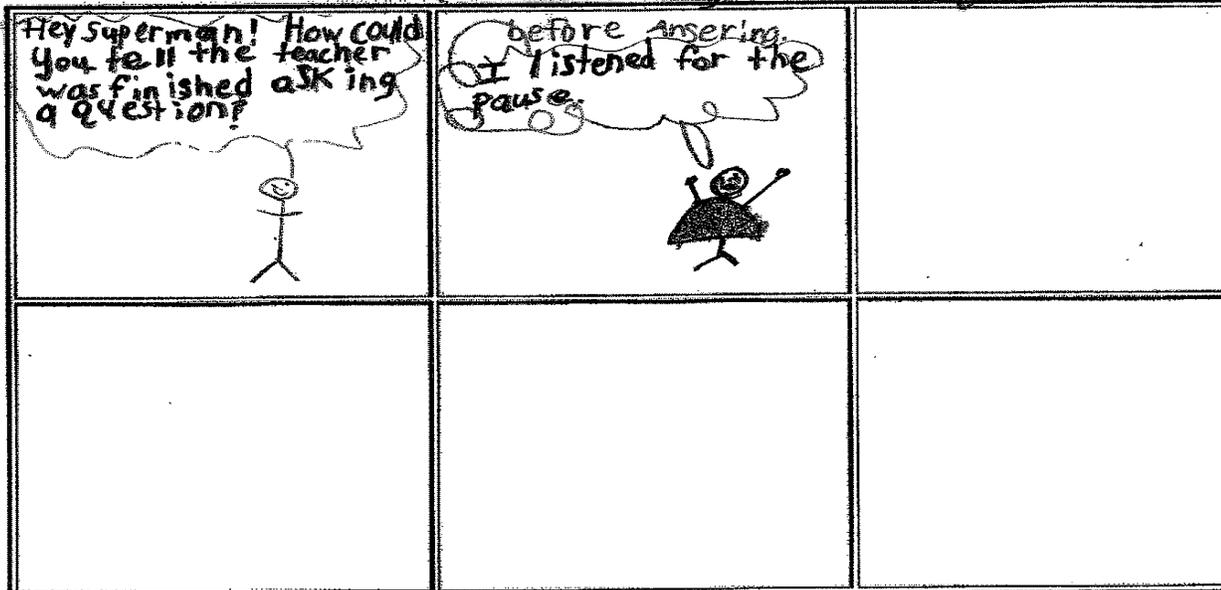

Last year the young company performed "Wally Finds His Inner Bear" and this year they came back with a spectacular performance called "The Eight Fire."

The Eight Fire brings the audience on the adventure of one boy and girl who had lost their connection with the natural world, rediscovering it through a journey that re-connects them with their ancestors as they find themselves in a magical, expansive world. The play received a standing ovation from staff and students as the play had captivated the audience attention from beginning to end. It certainly created a positive buzz around the school for days to come.
